

Interventional Cardiology

- Product portfolio strategy for leading interventional cardiology company
- Market assessment for percutaneous valve replacements
- Due diligence of mid-sized interventional cardiology company
- Market evaluation for percutaneous PFO closure device
- Strategic assessment of drug-device convergence opportunity
- Litigation support for atherectomy product company
- Partner assessment for novel drug coating for stents and balloons

Therapeutics & Diagnostics

- Market assessment for a novel IV antiplatelet therapy
- Commercialization strategy for adenosine A1 receptor antagonist
- Worldwide revenue forecast for endothelin receptor antagonist (ERA)
- Opportunity assessment for synthetic heparin alternative
- Due diligence on nuclear stress testing imaging agent
- Customer segmentation analysis for Phase III radiopharmaceutical
- Commercialization strategy for improved EKG

Peripheral Vascular Interventions

- Clinical development strategy for AAA stent graft
- Opportunity prioritization for mechanical thrombus ablation system
- Pricing and reimbursement strategy for stroke clot retrieval device
- Strategic analysis of US PICCs and ports market
- Assessment of the aneurysm coil market
- Due diligence on early-stage vascular device company
- Assessment of alternative approaches to treat SFA occlusions

Cardiac Surgery & Electrophysiology

- Sales forecast for enhanced cardiopulmonary bypass machine
- Future competitive landscape and market forecast for LVADs
- Due diligence on surgical atrial fibrillation ablation company
- Assessment of tissue-based and mechanical-based valve markets
- Market evaluation for novel ICD/CRT-D technology
- Pharmaco-economic analysis for EP monitoring device
- Market assessment of cryoablation for atrial fibrillation
