

Health Advances Awarded on the Forbes America's Best Management Consulting Firms 2022 List

Health Advances has been awarded on the Forbes list of America's Best Management Consulting Firms 2022. This prestigious award is presented by Forbes and Statista Inc., the world-leading statistics portal and industry ranking provider. The awards list was announced on March 15th, 2022 and can currently be viewed on the Forbes website.

America's Best Management Consulting Firms is comprised of the best consultancies based on results of an online, two-step methodology including expert and client surveys.

Step 1 – Surveys

Expert Survey: Over 7,500 executives and partners from more than 1,000 management consulting firms nationwide were invited to make recommendations for consultancies in 16 industries and 16 functional areas. Self-recommendations were not accepted or included in the final results.

Client Survey: Approximately 1,300 senior executives who have collaborated with a management consultancy in the past four years were surveyed. Respondents were asked which industries and functional areas they retained a consulting firm, and then recommended a firm compiled from the expert survey list.

Step 2 – Rankings

The top 218 of the most recommended management consulting firms were sorted into three different star classes, based on the data derived from the two surveys.

Based on the results of the study, Health Advances is ecstatic to be recognized on the Forbes list of America's Best Management Consulting Firms 2022. Health Advances was one of 15 healthcare consulting firms that received 4 or 5 star ratings.
