

The Boston Globe Names Health Advances a Top Place to Work for 2022 *Magazine Honors the Best Employers in Massachusetts*

BOSTON, MA (December 7, 2022) – Health Advances has been named one of the Top Places to Work in Massachusetts for the 5th time in the 15th annual employee-based survey project from The Boston Globe. The Top Places to Work 2022 issue published online at Globe.com/TopPlaces on the night of Wednesday, November 30, and in Globe Magazine on Sunday, December 4.

Top Places to Work recognizes the most admired workplaces in the state voted on by the people who know them best—their employees. The survey measures employee opinions about their company’s direction, execution, connection, management, work, pay and benefits, and engagement. The employers are placed into one of four groups: small, with 50 to 99 employees; medium, with 100 to 249 workers; large, with 250 to 999; and largest, with 1,000 or more.

“The pandemic has changed the way we work, and the employers who topped the list understand it goes far beyond the remote vs. in-office debate,” said Katie Johnston, the Globe’s Top Places to Work editor. “Workers want flexibility, of course, but they also want more support, more humanity, and a greater sense of purpose.”

Health Advances was ranked #17 in the Medium Companies category. Our 5 consecutive years as a Top Workplace is a clear indicator of the firm’s strong brand equity and growing impact in the healthcare industry.

“Our people are always our first priority. We are incredibly honored that our employees view their experience at Health Advances so positively,” said Kristen Turner, Chief Operating Officer at Health Advances. “We encourage everyone to bring their most authentic self to work every day. It is foundational to our culture and the cornerstone for any success we have.”

The rankings in Top Places to Work are based on confidential survey information collected by Energage (formerly WorkplaceDynamics), an independent company specializing in employee engagement and retention, from more than 90,000 individuals at 381 Massachusetts organizations, the most companies ever surveyed in the state. The winners share a few key traits, including offering more flexibility to continue working remotely, tracking progress on efforts to support a diverse workforce, and, above all, remembering to have some fun along the way.

Top Places to Work online extras include sortable rankings and features showcasing companies that are going the extra mile to make their workplaces more supportive and responsive to their employees’ ever-changing needs.
